# SETUP AND GUIDE

VELOCITYOFFICIAL SWEGWAY DEVICE BOARDS

Follow the steps in the guide to ensure you're  
set up and fully ready to use your  
Velocityofficial  
Swegway Device Board

## Swegway Device Board Box Contains the Following:

- Hoverboard/Swegway
- UK CE 3 Pin Charger
- User Script Manual
- Key Remote (If Applicable)

### **Please Note:**

Velocityofficial Device Boards all come with UK 3 pin charger adaptors that comply with BS1363 standards.

Velocityofficial Device Boards are fully tested and checked.

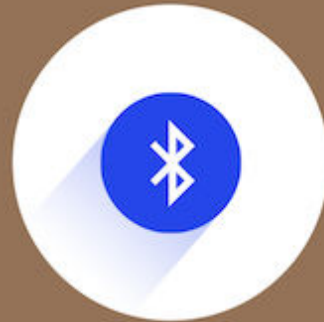

## WHAT YOU SHOULD DO

- Charge swegway for 2 hours after opening box
- Place board on flat ground and turn on
- Place one foot at a time on the board
- Remove one foot at a time
- Wear protective clothing in case of accident/injury
- Stay relaxed and calm
- Ride in hazard-free environment
- Stay focused at all times

## WHAT YOU SHOULD NOT DO

- Ride on high speed for a continuous time
- Leave charger on for more than 2 hours
- Remove swegway case (warrant void)
- Ride through water (non-waterproof)

**BLUETOOTH FUNCTIONALITY  
(APPLICABLE TO VELOCITYOFFICIAL  
BLUETOOTH MODEL DEVICE BOARDS ONLY)**

Once switching on your swegway, you will hear a confirmation sound indicating the Bluetooth is ready.

Once the Bluetooth device is on, you will need to pair the swegway with your device. Use your device to search for the swegway. Once recognised and paired, the Bluetooth is ready to use with music player.

## FIRST TIME USER (BEGINNER)?

Make sure you hold onto something first. This can be a friend or family member and will help you to gain confidence in using the velocityofficial swegway device board.

The key to enjoying your velocityofficial device board the most is by learning to balance yourself promptly. Once you have balanced yourself you can then lean slightly forwards or backwards to move the velocityofficial swegway.

Make sure you keep your face straight and not look down as this will cause you to lose balance which may result in injury.

To rotate the velocityofficial swegway, press on one side of the pedal to move to the other side of the swegway. Once you have gained confidence in using the velocityofficial swegway, you can then use it with no help from anyone.

**Enjoy!**

## BATTERY

All rechargeable battery cells in Velocityofficial swegways are SAMSUNG lithium-ion and are checked and approved to the highest standard. Recharge battery for a maximum of 2 hours and make sure you don't leave the charger on overnight.

## REMOTE CONTROL KEY (if applicable)

The remote control key is used to turn on and off the velocityofficial swegway. This is an easier method of turning on the swegway rather than turning on through pressing the silver button on the actual device board.

## RESET GUIDE (re-calibration)

You will need to reset your velocityofficial swegway every fortnight to keep it in good working condition and avoid any problems with the device board.

You can do this by following these 4 simply steps:

1. Charge the board for two hours and once the light has changed from red to green this will indicate it's fully charged. Then unplug the charger.
2. Turn the velocityofficial swegway off and make sure both sides are level. If both lights are green then this indicates everything is in good working order but if one green light is showing then the device board will need rebalancing.
3. So turn off the device board and hold down the "on" button for 30 seconds until the light on the swegway starts flashing.
4. Finally turn it back on and two green lights will show on the surface of the swegway. This is to indicate that the swegway has been reset successfully.

## About

One of the leading UK specialists in Supreme Technology. Our main professionalism and expertise is in swegway device boards. All our products are branded with our velocityofficial company logo to ensure and warrant that all our products are fully checked tested, and trustworthy.

Velocityofficial as a company are working to not only deliver a device board, but to build brand loyalty. We provide a sustainable product with an excellent reputation to all of our customers.
